Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 14-20, drawn to a method of performing a catheter procedure, classified in class 604, subclass 508.
 - II. Claims 1-13, drawn to a subcutaneous port catheter, classified in class 604, subclass 264.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II. and I. are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different process of using that product such as for use as a drain tube following surgery and/or to drain a wound site.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. This application contains claims directed to the following patentably distinct species of guide catheter and dialysis catheter the claimed invention:

Art Unit: 3763

Species: (Pick one of each catheter)

(guide catheter)

|-----------------------|---------------------------|------------------|
| A. Figures 4a-4d; | B. Figures 15, 16; | C. Figure 19 ; |
| D. Figures 20-21; | E. Figure 23; | F. Figure 24; |
| G. Figures 25-27; | H. Figures 31-32; | I. Figure 35; |
| J. Figures 39-40, 45; | K. Figures 46, 46a-b, 48; | L. Figure 51-52; |
| M. Figure 58; | | |

and the corresponding

(original catheter)

- | | | |
|---------------------|------------------|--------------------|
| 1. Figure 3; | 2. Figures 5a-d; | 3. Figure 14 ; |
| 4. Figures 17, 18 ; | 4. Figure 22 ; | 5. Figures 28, 29; |
| 6. Figure 33; | 7. Figure 47; | |

Upon election of each species above Applicant is required to election one of the following sub-species directed to the appropriate locking system:

Sub-species: (locking system)

- | | | |
|------------------------|------------------------|--------------------|
| aa. Figure 6; | bb. Figures 12-13; | cc. Figures 36-37; |
| dd. Figures 49, 49a-c; | ee. Figures 50, 50a-d; | |

Art Unit: 3763

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species and indicated sub-species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species and sub-species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species and/or sub-species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species and/or sub-species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species and/or sub-species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species and/or sub-species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
